OBJECTIVE

Motivated and detail-oriented Web Developer seeking an opportunity to apply my skills in HTML, CSS, JavaScript and more to build responsive, user-friendly web applications while continuously improving my technical expertise.

EDUCATION

DE LA SALLE UNIVERSITY DASMARIÑAS

2022-2027

Bachelor of Science in Information Technology

Cumulative GPA: 3.53

Relevant Coursework: Web Development, Database, Cisco Networking, Web Design, Cybersecurity, Machine Learning, IOT and Digital Transformation

HIGH SCHOOL

2016-2022

CAVITE SCHOOL OF LIFE DASMARIÑAS

WORK EXPERIENCE

SMALL BUSINESS SELLER

Pasalubong Products

- Established and managed a small business specializing in locally made *pasalubong* items such as native delicacies, sweets, and souvenirs
- Partnered with local artisans and suppliers to promote Filipino culture and support community-based livelihoods

INTERNSHIP

2026

Full Stack Web Developer

- Detail-oriented Web Developer with experience in designing, developing, and maintaining responsive and user-friendly websites. Proficient in front-end and back-end technologies including HTML, CSS, JavaScript, and modern frameworks.

UNIVERSITY PROJECT

CAPSTONE PROJECT

NFC-ENABLED DOOR LOCK AND ATTENDANCE REPORTING SYSTEM

- Developed a smart door lock and attendance system utilizing Near Field Communication (NFC) technology for secure and automated access control
- Programmed the system using Arduino microcontroller integrated with RFID/NFC modules and database connectivity for real-time attendance tracking

PERSONAL PROJECT

Simple Task Manager

- Developed a web-based task management application designed to help users organize and track daily activities efficiently. Implemented features such as task creation, editing, deletion, and status tracking to improve productivity and workflow management.

Landing Page (Perfume)

- Designed and developed a visually appealing landing page for a perfume brand, focused on showcasing products and enhancing user engagement. Created a responsive and modern layout using HTML, CSS, and JavaScript to ensure optimal viewing across devices.

BIG Project Tracker

- Developed a dynamic web application using HTML, CSS, and TypeScript with Framework Node.js, React.js, Express like focused on delivering an interactive and user-friendly experience. Built responsive layouts and intuitive interfaces to ensure accessibility across multiple devices and screen sizes.

Hotel Management System

- Developed a web-based Hotel Management System using HTML, CSS, and TypeScript with Framework Node.js, React.js, Express to streamline hotel operations and improve user experience. Implemented core features such as room booking, reservation management, customer information tracking, and availability monitoring.

Week log Report

- A web-based application designed to streamline the creation, submission, and management of weekly work reports. The system features a modern and responsive user interface built with Next.js, ShadCN UI, Redux, and Tailwind CSS, ensuring a seamless user experience across different devices. It also leverages FastAPI for high-performance API development, Pydantic and schema management, SQLAlchemy.

Attendance Management System

- The Attendance Reporting System is a web-based application that helps organizations manage and track attendance records efficiently. The application features a modern and responsive built with Next.js, ShadCN UI, Redux, and Tailwind CSS. The backend is powered by FastAPI, ensuring high-performance API, while Pydantic provides data validation. SQLAlchemy handles database interactions, and Alembic.

ORGANIZATIONAL EXPERIENCE

College of Science and Computer Studies Student Government, De La Salle University Dasmariñas- (2022-2023)

- **Campaign Committee member:** Created captions which were used in publication materials. Successfully wrote captions even under rushed times.
- **Project Ikigai member:** To contribute actively to the team's mission of discovering purpose, developing skills, and creating meaningful outputs. Members participate in brainstorming sessions, share ideas, and help shape project goals.

ADDITIONAL

- Technical Skills

Programming Development: HTML, JavaScript, CSS, Python, TypeScript, Node.js, React.js, Express, Vite, Tailwind, Redux, ShadCN, Alembic, Pydantic Schema

Networking: Cisco Packet Tracer, Cybersecurity

Database: MySQL, Postgres, SQLAlchemy, MongoDB

- Certification & Training

Programming Essentials in Python, Database, Cybersecurity, AI Automation, Ethical Hacker, DevNet Associate, Cyber Threat Management, Getting Started Cisco Packet Tracer, CCNA Switching, Routing and Wireless Essentials

- Awards

Dean's Lister Multiple Semester (2022, 2024, 2026)

- Tools

Microsoft Office, Git/GitHub
